

Ensenada Pérez – Besides Macá volcano

A new tour takes you to enjoy the Cinco Hermanas Natural Monument, at the entrance to the Aysén fjord, just 1 hour from Puerto Chacabuco.

We will sail through the Patagonian channels on board our catamaran "Chaitén" to enjoy a relaxing day at the foot of the Macá volcano, 2960 altitude, whose cone is covered with ice.

We invite you to join us for a day of rest in a natural environment privileged in our natural pools of hot water and the attention of Hotel Loberías del Sur.
